

NOIBEDYA NARAYAN RAY

Product Designer | UX/UI Design | B2B SaaS | HealthTech | Data Visualization
London, ON, Canada | +1 (437) 661-4804 | nnr1011@outlook.com | [linkedin.com/in/noibedya](https://www.linkedin.com/in/noibedya) | [Portfolio ↗](#)

PROFESSIONAL SUMMARY

Product Designer with 3+ years across B2B SaaS, Health-Tech, and data-heavy interfaces. Takes products from user research and wireframing through to production ready Figma components and scalable design systems. Strong accessibility practice (WCAG 2.1), plus a computer science background that makes collaboration with engineers faster. Google UX Design Professional Certificate (2026).

CORE COMPETENCIES

UX/UI Design: End-to-End Product Design · Interaction Design · Visual Design · Wireframing & Prototyping · User Flows · Information Architecture · Progressive Disclosure · Responsive & Mobile Design · Data Visualization · Dashboard UX

Tools & Tech: Figma · Lottielab · Adobe CC (Photoshop, Illustrator, After Effects) · Autodesk Maya · Unreal Engine 5 · HTML/CSS · Python · SQL

Process & Accessibility: WCAG 2.1 · Design Systems · Component Libraries · Agile/Scrum · User Research · Usability Testing · Localization · Design-to-Dev Handoff · Stakeholder Presentations · Cross-Functional Collaboration

PROFESSIONAL EXPERIENCE

Product Designer, GoMAXPAIN, Orlando, FL (Remote)

Apr 2026 - Present

- Designed a 15-step onboarding flow for 5,000+ verified lawyers and doctors, from user flows and wireframes to high-fidelity Figma prototypes. The flow captures 10+ profile data points, completes in under 2 minutes, and is localized across 10+ languages and 3 payment types.
- Built a reusable multi-select component for the design system and rolled it out across 4 profile sections. Documented every state and spec so engineers could build it without a round of clarifying questions.
- Designed a "Review & Finish" screen that pulls 6 setup categories into one view, which cut out post-signup support corrections. Also designed real-time password validation and SMS/WhatsApp two-factor authentication flows that meet regulatory compliance requirements.

UX & Visual Designer, Visual Thinkers, London, ON

Mar 2025 - May 2025

- Redesigned the agency homepage in Figma and built it in WordPress with HTML/CSS, meeting WCAG 2.1 accessibility. Set up a type of scale and reusable component patterns that 3 concurrent client projects adopted.

Freelance Product Designer, Self-Employed (Remote)

Nov 2018 - Mar 2025

- Completed 100+ client projects (brand identity, responsive web and UI design, motion graphics) for education, technology, and creative-services clients. Held a 4.8-5.0 rating as a Level 2 Fiverr seller through years of feedback and revision cycles with non-technical stakeholders.

SELECTED PROJECTS

AI Health Link Canada (Health-Tech): Designed AI-assisted triage and medical intake flows. Used progressive disclosure to reduce cognitive load for anxious patients without losing clinical completeness and validated the flows through usability testing against patient personas.

Creative Workflow Manager (B2B SaaS): Designed a Kanban review platform with frame-accurate feedback and automated versioning. Took it from wireframes to a high-fidelity Figma prototype built on a scalable component library.

ECO Track (Dashboard / Data Visualization): Designed a sustainability dashboard that turns 12 carbon input categories into one clear progress metric. Users who want the underlying data can drill down on demand.

EDUCATION

Post-Graduate Certificate, VFX & 3D Animation, Fanshawe College, London, ON, Canada

2023 - 2025

BSc, Computer Science & Engineering, United International University, Bangladesh

2016 - 2021

CERTIFICATIONS

- Google UX Design Professional Certificate (2026)
- Google UX Research & Early Concepts Testing; Build Wireframes & Low-Fidelity Prototypes; High-Fidelity Designs in Figma
- Adobe Illustrator & Premiere Pro (2025); HubSpot Inbound Marketing
